

Nazmus Sakib

University of Colorado Colorado Springs, 1420 Austin Bluffs Pkwy, Colorado Springs, CO USA 80918

Email: nsakib@uccs.edu **Call:** +1 (719) 412-8216

Summary

- Currently a third-year Ph.D. student in Cybersecurity at the University of Colorado Colorado Springs, with a research focus on vulnerability identification and the development of security solutions for distributed networked systems. Research aims to enhance the security and reliability of distributed network architectures.
- Earned a Master's degree in Computer Science (Research Mode) from the Universiti of Malaya (UM), Malaysia in 2020, and a Bachelor of Science (Engineering) degree in Computer Science and Engineering from Shahjalal University of Science and Technology (SUST), Bangladesh in 2011.
- Brings over seven years of teaching experience at the university level, along with one year of industry experience as a software engineer.
- Areas of expertise include designing countermeasures against threats in Peer-to-Peer (P2P) networks and assessing the reliability of distributed networked systems.
- Having good analytical & communication skills, a collaborative approach to teamwork, innovative thinking, and effective leadership abilities.

Education

January 2023- Present

Ph.D. in Cybersecurity

The University of Colorado Colorado Springs (UCCS), USA

CGPA: 3.767 out of 4.00

Advisor: Dr. Sang-Yoon Chang

February 2018- August 2020

Master of Computer Science (Research Mode)

Universiti of Malaya (UM), Malaysia

Advisor: Dr. Rodina Binti Ahmad

January 2008- June 2012

Bachelor of Science (Engineering) in Computer Science and Engineering

Shahjalal University of Science and Technology (SUST), Bangladesh

CGPA: 3.50 out of 4.00

Advisor: Israt Jahan

Professional Experiences

June 2025 – July 2025

Summer Conference Assistant | UCCS

Job responsibilities:

- Supported youth camps and large-scale conferences by managing front desk operations, assisting with guest services, housekeeping, and event setup.
- Collaborated with a diverse team to ensure smooth hospitality operations in a fast-paced, service-oriented environment.
- Strengthened skills in communication, problem-solving, teamwork, and customer service.

January 2025- May 2025

Graduate Teaching Assistant | Computer Science Department | UCCS

Job responsibilities:

- Teaching Assistant for **CS 3020 C#**. The responsibilities are grading, tutoring, recitation, office hours, and attending classes.
- Teaching Assistant for **CS 3910 System Administration and Security**. The responsibilities are grading, tutoring, recitation, office hours, and attending classes.
- Teaching Assistant for **CS 4920 Applied Cryptography**. The responsibilities are grading, tutoring, recitation, office hours, and attending classes.

August 2024- May 2025

Mentored Doctoral Fellowship | Graduate School | UCCS

Job responsibilities:

- **Problem-Solving:** Collaborated to enhance distributed networked security by identifying and addressing vulnerabilities in Bitcoin and developing robust countermeasures against novel threats.
- **Data Analysis:** Analyzed P2P network behaviors and utilized machine learning for peer beneficialness prediction, and anomaly detection.

June 2023- December 2024

Graduate Research Assistant | Computer Science Department | UCCS

Job responsibilities:

- **Problem-Solving:** Collaborated on strengthening distributed network security by identifying vulnerabilities in the Bitcoin network and designing effective countermeasures against emerging threats.
- **Data Analysis:** Investigated P2P network behavior and applied machine learning techniques for predicting peer beneficialness and detecting anomalies.
- **Detail-Oriented:** Performed in-depth analyses and contributed to peer-reviewed publications and conference presentations, including responsible vulnerability disclosures.

January 2023- May 2023

Departmental Teaching Assistant | Computer Science Department | UCCS

Job responsibilities:

- **Teaching assistant for CS 1450 Data Structures.** The responsibilities are grading, tutoring, recitation, office hours, and attending classes.

January 2022- December 2022

Assistant Professor | Department of Computer Science and Engineering | Dhaka International University, Bangladesh

Job responsibilities:

- **Teaching and Curriculum Development:** Prepare and deliver lectures, tutorials, and lab sessions for undergraduate and graduate courses. Develop and update course materials,

syllabus, and assessments aligned with academic standards. Supervise student projects, internships, and thesis work.

- **Research and Scholarly Activities:** Conduct independent and collaborative research in computer science and engineering fields. Publish research findings in peer-reviewed journals and present at academic conferences. Seek research funding and participate in academic grant applications.
- **Student Mentorship and Advising:** Advise students on academic and career matters. Guide students in research projects, competitions, and extracurricular academic activities.

February 2018- March 2020

**Graduate Research Assistant | Software Engineering Department
| UM**

Job responsibilities:

- **Problem-Solving:** Developed a hybrid paper recommendation model addressing cold-start issues by leveraging public metadata and 2-level citation context.
- **Data Analysis:** Extracted and analyzed scholarly data using citation matrices and evaluated models with Precision, Recall, F1, MAP, and MRR.
- **Detail-Oriented:** Conducted rigorous experiments and published findings in peer-reviewed journals, ensuring high research accuracy and quality.

February 2018- January 2020

**Research Fellow | Bangabandhu Science and Technology
Fellowship Trust | Ministry of Science and Technology | People's
Republic of Bangladesh.**

Job responsibilities:

- Conducted advanced postgraduate research in computer science, focusing on intelligent systems for scientific paper recommendation.
- Contributed to the advancement of data-driven solutions aligned with national priorities in education, research, and innovation.

May 2014- December 2017

**Lecturer | Department of Computer Science and Engineering |
Dhaka International University, Bangladesh**

Job responsibilities:

- **Teaching and Curriculum Development:** Delivered lectures, tutorials, and lab sessions for undergraduate courses; developed and updated course syllabus, assessments, and instructional materials in alignment with academic standards. Supervised student thesis work, projects, and internships.
- **Research and Scholarly Activities:** Conducted research in areas including recommender systems and distributed computing; published peer-reviewed articles and presented findings at academic conferences. Engaged in collaborative research and supported academic grant proposals.
- **Student Mentorship and Advising:** Provided academic and career guidance to students; mentored student research

projects and encouraged participation in competitions and extracurricular activities.

October 2013- April 2014

Junior Software Engineer | MicroMac Techno Valley Ltd, Bangladesh

Job responsibilities:

- Developed dynamic and responsive websites using PHP, MySQL, and the CodeIgniter framework.
- Contributed to the design and development of custom software solutions for banking clients, focusing on secure data handling and transaction processing.
- Collaborated with cross-functional teams to gather requirements, implement features, and ensure software quality through testing and debugging.

Awards and Achievements

2024	Recipient- Mentored Doctoral Fellowship, Graduate School, UCCS
2023	Full Tuition Scholarship at UCCS
2020	“Best Paper Award” for the paper “Renal cell cancer nuclei segmentation from histopathology image using synthetic data” in langkawi, Malaysia
2018	Research Fellow , Bangabandhu Science and Technology Fellowship Trust, Ministry of Science and Technology, People's Republic of Bangladesh

Selected Talks

April 8, 2025	Lecture: Blockchain and Cryptocurrency, Teaching Assistant- CS 4920 Applied Cryptography, University of Colorado, Colorado Springs
January 7, 2024	Positive Reputation Score for Bitcoin P2P Network, IEEE 21st Consumer Communications & Networking Conference (CCNC)
February 28, 2020	Renal Cell Cancer Nuclei Segmentation from Histopathology Image Using Synthetic Data, 16th IEEE International Colloquium on Signal Processing & Its Applications (CSPA)

Technical Skills and Competencies

Cryptography	Expertise in traditional applied cryptography <ul style="list-style-type: none">- Mentored students in two cryptography courses, emphasizing practical usage and implications of the cryptographic principles.
Data Mining and Analysis	Applied machine learning to self-extracted technical datasets, utilizing Matlab/Mathematica for data visualization/analysis.
Languages	C/C++, Python, JavaScript, C#/Visual Basic, Unix/Bash, Java, Assembly, PHP
Relevant Coursework	Applied Cryptography, Computer Communication, Software Engineering, Data Structures and Algorithms, Operating Systems, Fundamentals of Computer/Network Security, Computational Automata and Formal Languages, Calculus, Discrete Mathematics.

Leadership Experience and Professional Service

August 2024 - Present	Member , Graduate Student Association at UCCS
July 2023 - Present	Student Member <ul style="list-style-type: none">- IEEE Student Member
February 2018 – January 2020	Member , Graduate Student Association at UM

July 2022 – December 2022	President, Computer Networking Club, DIU, Bangladesh
January 2021 – December 2021	Vice President, Computer Programming Club, DIU, Bangladesh
January 2015 – December 2017	Programming Contest Judge, DIU, Bangladesh
January 2010 – June 2012	Member, Artificial Intelligence Research (AIR) Group, SUST, Bangladesh
